Senior Designer

BCA Architects is looking for highly motivated and talented staff people to join our San Jose office! BCA is a full service architectural firm celebrating 28 years in business, serving all areas of California designing projects in education, civic, commercial and senior living. We are an award winning firm and pride ourselves in strong "value added" services and design capabilities with four (4) offices in San Jose, Sacramento, Orange County and Los Angeles. For more information visit: www.BCAarchitects.com.

Experience:
10+ Years working as an architectural designer
Licensure preferred but not required

Job Description/Tasks:
- Creates project designs and plans for all phases of projects and coordinated building design consultants while monitoring the drawings
- Coordinates with the Project Manager for budgeting, scheduling, planning, design, specification, and working drawings on a given project with authority to direct, control, and monitor the project's design.
- Performs work requiring independent judgment in evaluation, selection, and substantial adaptation/modification of architectural design techniques, procedures, and criteria.
- Independently solves architectural design opportunities.
- Initiates and monitors procedures for architectural design.
- Contributes information for architectural specifications. Consults product manufacturers, evaluates and selects and presents materials and colors.
- Prepares and / or supervises the preparation of architectural plans through agency approval.
- Prepares and / or supervises the preparation of architectural renderings.
- Reviews architectural design related RFI's during construction and periodically visits the construction site to confirm design.
- Independently performs most assignments.
- Receives technical guidance on unusual or complex issues.
- Can routinely supervise multiple job captains and designers on various projects concurrently.
- May be involved in marketing/ business development design tasks such as the graphic design of collateral, web based and print media.

Job Requirements:
- Bachelor's Degree required. (Accredited Architectural Degree preferred)
- Experience in budgeting and quality control.
- Able to demonstrate proficiency in design software platforms such as AutoCAD, Revit, SketchUp, Adobe Suite, etc.
- Demonstrate strong architecture design, space planning, construction documentation and presentation skills.
- Able to utilize strong analytical and problem solving skills.
