Project Designer I

BCA Architects is looking for highly motivated and talented staff to join our Sacramento and San Jose Offices! BCA is a full service architectural firm celebrating 28 years in business, serving all areas of California designing education, civic, commercial and senior living projects. We are an award-winning firm and pride ourselves in strong “value added” services and design capabilities with four (4) offices in San Jose, Sacramento, Orange County and Los Angeles. For more information visit: www.BCAarchitects.com.

Experience:

1+ years working for a licensed architect or in a professional A/E/C firm

Job Description/Tasks:

- Work within a project team of architects and engineers, and meeting with administration to develop functional requirements and project design criteria/needs.
- Develop and communicate clear, concise design plan(s).
- Ensure designs are in line with regulatory standards and codes.
- May assist with developing design schedules, manpower allocations and budgeting.
- Performs routine architectural assignments under direct supervision.
- Works off designs from others, compiles data, performs design computations, prepares architectural drawings and renderings, consults manufacturers, evaluates materials, collects product literature to use in writing architectural specifications and inspects architectural features of structures in the field.
- Assignments may include higher-level work for training/development purposes.
- Supervisor screens assignments for unusual or difficult problems and selects techniques/procedures for non-routine work.
- Receives close supervision on new aspects of assignments.

Job Requirements:

- Bachelor's Degree required.
- Minimum one year of experience in budgeting and quality control.
- Ability to demonstrate proficiency in AutoCAD, Revit, SketchUp, Photoshop/InDesign/Illustrator and PowerPoint.
- Demonstrate strong architecture design, space planning, construction documentation and presentation skills.
- Ability to utilize strong analytical and problem solving skills.
